

RECYCLING CERTIFICATION INSTITUTE

2022 Rate Sheet

These rates are current for 2022 Registrations, Certifications, and Re-Certifications.

All facilities will be charged a \$400 rate to Register a Mixed or Single material line and have that line listed on RCI's website.

Members of the [Construction & Demolition Recycling Association](#) (CDRA) receive a discounted rate* as indicated below.

Certification rates are based on the type of facility/line. For example, a Certification of a Mixed C&D line/operation is more complicated and time-consuming than that of a Single line operation (concrete, wood, shingles, etc.), thus the rate reflects the resources differential associated with certifying the two types of operations.

A Certification period is five years, subject to an annual Recertification charge. After five years a facility must undergo the Certification process again.

CDRA Member Rate

Registrations (per line)	\$400
Certifications -- Mixed	\$7,000*
Recertification -- Mixed	\$3,500
Certifications -- Single	\$2,500*
Recertification -- Single	\$1,000

Non-CDRA Member Rate

Registrations (per line)	\$400
Certifications -- Mixed	\$8,000
Recertification -- Mixed	\$3,500
Certifications -- Single	\$3,500
Recertification -- Single	\$1,000
